ACCOUNTING & BUSINESS SERVICES

Excellence Assured

About Be-Yond

Welcome to Be-Yond Consulting, where we stop at nothing to deliver a world class service to all of our business clients.

From benchmarking studies and financial health checks to bookkeeping and compliance screening, our job is to make running your business easier. We take care of all the details so you can focus on the bigger picture and the day-to-day management of your business. Need a payroll solution for your staff? Perhaps you'd like to have your tax returns and filing taken care of? Whatever your needs, excellence is assured at Be-Yond Consulting and Business Services.

Be-Yond Consulting was founded by Waleed Mohamed

Waleed Mohamed
Be-Yond Consulting
Founder, Director

A proud graduate of Cairo University with a B.COM in Accounting, Waleed also has over 20 years experience in finance industry.

From working as an auditor with KPMG Hazzem Hassan to an eight year stint as Chief Accountant with Total Egypt Ltd., he received the very best training and is a globally recognized CPA (Certified Public Accountant from the United States). Throughout his whole career he has been commended for his commitment, hard work and integrity.

Sami M. Al Sagh
Credit One Kuwait Holding

“Waleed has been a great help to my efforts to propagate professionalism and compliance in the company by participating in drafting many procedures and regulations which are now enacted.”

“I’ve known Waleed for five years as his direct manager, he is a qualified professional with experience in all aspects of his field, shortly after joining us Waleed managed to establish the Financial Analysis function within the Finance Department to assess the creditworthiness of our customers who are seeking finance through analysing their financial statements.

Thanks to Waleed, we now have a clockwork reporting system, and plenty of management reports that highlights the strengths and weaknesses of our performance.

Waleed is an individual with high work ethics and a passion for fairness and excellence, and I believe he would be of great value to any organization.”

Hazim Al Mutairi
Credit One Kuwait Holding
Chief Executive Officer

“Waleed, as a colleague and friend, is very professional, dedicated, keen and sincere to his job, he is supportive and cooperative to his subordinates.

He is an asset to any organization.”

Khaled Bassyoni
MS/AFR/RH
Direction Afrique
Regional HR Manager

“I had the opportunity and pleasure to be Waleed’s co-worker as a Human Resources Director while he was the Finance Manager.

Over the last five years Waleed successfully led the Finance Department showing a balance of leadership, good relations with staff and goals achievement.

His identification of talented personnel and ability to assemble this talent into a high performing team is an indication of his managerial skills.

Waleed has been a great help to my efforts to propagate professionalism and compliance in the company by participating in drafting many procedures and regulations which are now enacted.

His combination of commitment, punctuality and attention to detail would certainly make him a valuable member of any company.”

Services

Tax Services

Tax laws and legislation often change from year to year. We stay up to date with the very latest, constantly reviewing the potential impact the changes might have on your business. With Be-Yond, you'll be able to identify and act on key tax planning opportunities, as well as minimise your current and future tax liabilities.

We'll conduct regular tax reviews of your business, determining the most efficient tax structure for your needs. In our experience, this often results in huge savings as business owners discover new ways of handling their annual tax affairs.

As with most things in business, the key is to stay up to date, be proactive and plan ahead. Unfortunately this isn't always quite so easy when running a busy company. That's where we come in. We can help you:

Minimise your corporation tax liabilities

Make the most of any available reliefs, tax losses and deferment opportunities

Ensure you meet all your HMRC deadlines and file your returns correctly, thereby avoiding any potential penalties

Shariah Advisory on Islamic Banking and Finance

You'd be forgiven for thinking that being wealthy is easy, but this isn't always the case. Having money comes with its own set of unique problems. Naturally, those with a good amount of capital will want to nurture and protect it to the best of their ability, and investing it can be fraught with risk. With added compliance rules, such as Shariah, it can be even harder.

In order to help investors solve this problem, Be-Yond have developed a tried and tested methodology for screening Shariah compliant stocks within the UK stock markets. The resulting reports can offer endless investment opportunities that are Shariah compliant for investors from across the Islamic world. With all the benefits of the UK market, such as political stability, transparency, fair and fast legal systems, multiculturalism and a solid economy, there is enormous potential for investment.

Payroll Administration

All business want to pay their staff fairly and timely, but managing payroll can be a headache without dedicated resources. Many smaller businesses simply don't have the time and can't afford to divert resources away from marketing and building customer relationships. Be-Yond offer a full payroll administration service that's confidential, cost-effective and can be ran parallel to your internal accounting if you wish.

Our service includes:

Starters and leavers

Code number changes

Customised and generic payslips

Taxable benefits

Company, personal, and stakeholder pension schemes

Student loan recovery

SMP, SPP, SSP, and SAP

Pay As You Earn

Advice on tax and NIC payable

Processing payments through BACS

Dealing with employee enquiries

Standard payroll reports

Translation

Translation isn't easy. If you've used a translation service before, you'll be used to receiving documents and emails that make little sense, often requiring further research and clarification to establish real meaning. We understand that there's more to translation than simply lining up words and converting them; it's about taking the meaning of the source material and re-creating it in another language, conveying the author's thoughts, feelings and ideas. With our translation services we take all of this into account, considering culture, context and character above all else.

Bookkeeping and Accounting

When the tax deadline looms do you spend your days chasing down receipts and misplaced documents? If you do, you're not alone. Most business owners see their tax affairs as a bit of a headache; it gets in the way of doing what they really love, like handling customers, shipping products or marketing their business. What if that could all be taken care of for you?

At Be-Yond Consulting, our job is to make your life easier. We'll collect all of your documents and organise them for you. We'll even process transactions and create detailed financial reports and do all of the necessary filing with Companies House, leaving you free to run your business.

We don't stop there though. If you like, we can help you manage your accounts and inform you of any incoming issues that may require your attention, such as:

Cash flow

Budgeting

Performance ratios

Customer activity

Credit control

All of this is designed to help you spot issues before they arise, preventing potential problems before they occur.

What's more, we can take the headache of VAT returns, bank reconciliations and annual accounts away from your staff, improving their overall productivity.

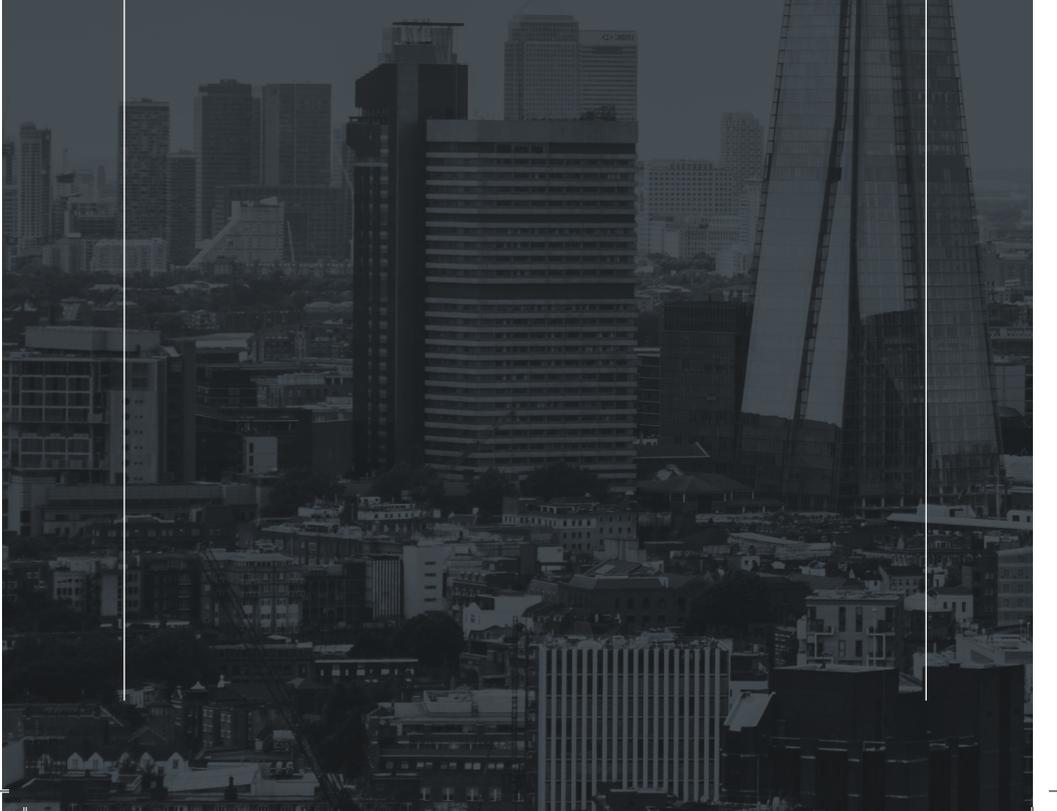

Benchmarking Studies

It's difficult to measure the performance of your business if you've got nothing to compare it to. Whether you take the figures from a previous year, look at budgeting targets or assess competitor businesses in the same industry as yours, you need something to measure up against; you need a *benchmark*.

Benchmarking can be quite a complex process. Not only do you need to put your hands on relevant industry information to assess your performance, you need to make sure that information is relevant, accurate and appropriately balanced with your ambitions for growth. One of the most common benchmarking applications is known as the 'Key Financial Indicator'.

At Be-Yond, we specialise in conducting studies and surveys that highlight performance standards in a given sector of the market. We then produce detailed reports that identify your strengths and weaknesses in comparison, pointing out key areas that may require additional resource or attention. To ensure the best results, we segment the market by industry, sector, scale, area and legal form and pull in huge amounts of data.

We keep your business in the know and ahead of the curve.
